## Pre-College Language Immersion for High School Students

The **Rutgers University Language Engagement Project's** Language Immersion summer program provides pre-college students the opportunity to rapidly increase their level of fluency in the target language. With an emphasis on fluency, the institute is proficiency-oriented and aims to help participants develop four basic skills: speaking, reading, writing, and aural comprehension. Students will engage with the target language via language, culture, and classes via Zoom. They will be given the opportunity to explore their interests in a variety of themes based on the learning goals. Placement interviews are conducted after signing up so that participants are placed based on their proficiency.
